

**8th International Conference of Young Scientists &
Annual General Meeting of the Global Young Academy**

7-11 May 2018 | Pattaya, Thailand

“Forever Young? Sustainable and Healthy Longevity through Science and Technology”

Outreach Program

The GYA Young Scientist Ambassador Programme (YSAP) in collaboration with the local organizing committee (LOC) of GYA AGM 2018 would like to invite all of GYA members to participate in the outreach program on May 12, 2018 at Burapha University. The goal of this event is to bridge gap among nations and encourage collaboration among GYA members and young scientists in Thailand. The activities of the outreach program are as shown below.

Day 5	Saturday, 12 May 2018	Location
07:30 – 08:30	<i>Breakfast</i>	Dusit Thani Pattaya
08:30 – 10:00	Travel to Burapa University	Burapha University
10:00 – 12:00	Presentations by GYA Members	Burapha University
12:00 – 13:00	<i>Networking Lunch</i>	Burapha University
13:00 – 15:00	Laboratory Visit - Vacuum Technology and Thin Films Research - Bioprocess Engineering Laboratory - Microbiology Laboratory - Central Laboratory	Burapha University
15:00 - 18:00	Travel to Suvarnabhumi Airport	Suvarnabhumi Airport

Burapha University would like to increase the opportunities to allow their researchers to listen to the talks of different areas. As a result, we would like to open call for all GYA members to give a presentation. The presentation topic is about your own research and the presentation time is no longer than 15 minutes. There will be approximately 40-60 audiences (undergraduate/graduate/professor) from Burapha University. Please note that Burapha University will select the presenters based on the presentation topics that match with the interests and scientists of the university. If you would like to volunteer to give a presentation, please directly email your presentation topic and CV to Numpon at numpon@kku.ac.th to sign up by March 25, 2018.

Burapha University will inform the selected presenters by March 30. Burapha University would also like to encourage those who are not selected to still participate in the outreach program because there will be networking lunch and laboratory visit, which will be a great opportunity for all the participants to establish a connection. After the outreach program, the participants will be transported to Suvarnabhumi airport.

Please note that this is an extra day out of the AGM program. GYA members who join the event will be provided only the transportation to Burapha University in the morning and to Suvarnabhumi Airport after the end of the event. LOC will not cover accommodation fees on the night of May 12.
